

Franklin Guide

Encounter Beauty on Your Own Terms

1. Introduction

Since the dawn of man, men have desired the embrace of a beautiful woman. For various reasons, mother nature makes it challenging to obtain it. Arguably today (especially in the west), the traditional methods of dating and marriage have become too messy and expensive with far too much long term liability.

The Franklin Guide aspires to offer gentlemen with a fine taste for beauty an outlet that is more structured. While an imperfect solution, it serves a purpose to fulfill a need that scientifically proven to be more important than food for men. While we cannot help you with enlightenment, we can at least give you a reason to keep living.

2. Paying for Beauty

Just like restaurants, the world of pay for beauty has many different levels of categories. There are cheaper options and there are extremely expensive options as well. A higher price does not necessarily means you are getting a better value.

In the USA, it is only legal to pay for it in some remote areas of Nevada. This added risk limits the supply of beauty and adds a premium to the price. This premium is especially high for young beautiful women to the point where they are able to charge upwards of \$2k per hour. While some men can afford this, we can all agree there's a lack of value there.

The alternative is to visit a country like Germany where there are clubs like FKK Sharks where they have turned paying for beauty into a legal commodity. While not everyone is a stunner, the lineup is large enough that you can find at least one 9+ out of 10 that could command over a thousand dollars an hour in the states, but will only charge 100 to 150 euro for 30 minutes in Germany.

It's not a free lunch as traveling carries its own cost. Flights to Frankfurt, Germany range from 1k to 2.5k depending on when you book it. You'll have to also cover hotel costs as well. However, there are ways to mitigate this by collecting airline miles through introductory credit card offers.

To make it worth it, you have to treat it like a vacation. Everyone needs a break from the monotony of life that is work and long term relationships. Instead of visiting another beach or old town, you are having encounters with feminine beauty without any emotional baggage when you leave.

3. Why FKK Sharks?

Just like in an industry, there's a sort of winner takes all situation that happens over time. Young beautiful women are rare and as information spreads, most desire to work at a place where they will be most successful. In the flip side, most men desire to meet a stunning beauty without paying an exorbitant price. FKK Sharks has managed to balance both sides so well that it is considered the most famous bordello in the world today.

The pay for play industry is wrought with challenges. Most online escort sites are either a straight up lie or heavily filtered. It can be a very awkward and expensive lesson to be in a room with someone you're not attracted to at all. It could also be dangerous as there could be a criminal element.

Germany solved this in the early 2000s by the Prostitution Act of 2002. It recognized the professional as legitimate, granted workers labor rights and legalized brothel operations. Combined with professional management, Germany has become the "Bordello of Europe".

Unlike the more traditional type of brothel that consists of apartment units, the Germans innovated by creating the FKK sauna club which was inspired by their history of enjoying being naked in nature as a way to relax. To avoid allegations of pimping, the FKK club simply charges a fee to both the male guests and female courtesans to get access to facilities such as spa facilities and buffet.

A male guest and female courtesan can then decide whether to share an intimate moment for a negotiated amount. What makes this special is that the club does not make any money from this negotiated amount. In addition, the German

comfortableness of being naked promotes as spa like environment where men are in robes and the women are mostly naked.

The women being mostly naked and in a single environment allows you to check out many options quickly before committing which is a major advantage over online escorts and apartment style brothels. In general, men's taste in women are highly personal. While men generally agree that women in the 18-25 age range are most attractive, there is a high variance in the types of women each man finds attractive.

This is where FKK Sharks truly shines. They built a large enough facility to allow hundreds of men and hundreds of women. By law of probability, there is a high chance that you'll find women here that you will find highly attractive.

While FKK Sharks can not technically enforce a given price for intimate time, they highly encourage the women to stick to 100 euros per 30 minutes. The fee includes a blow job without condom (a few women may insist on a condom so ask beforehand) and sex with a condom. This structure makes the negotiation aspect go much more smoothly.

Just like in sales, there can be upsells. An upsell could include an extra 50 euros for French Kissing (be careful as the quality of kissing can vary greatly). Other upsells could be cum in mouth (usually 50 euros) or anal (usually 100 euros). Extras in general are highly conditional on the courtesan and also her chemistry with you.

The quality of service you receive can vary quite a bit depending many factors such her mood, professional and your chemistry. One great advantage of FKK Sharks is that you recover from a poor session but simply relaxing, having a sauna, going for a swim and/or eating some food. After that, you can simple try your luck again with someone else.

Overall, FKK Sharks may not the very best in any every category. However, it punches above average in so many categories, and it excels in the one category that matters the most: sheer number of courtesans. It is no surprise that it's the number one talked about bordello in the world.

4. Other Destinations

While FKK Sharks is a mind blowing experience, it is wise to change things up to keep things fresh. There are other clubs in German such as FKK Oase which has a large

outdoor area which is great for the summer. The lineup is not as impressive as FKK Sharks but worth a visit if you have time. However, there are two clubs in nearby countries that shine in their own respective way.

The first one is about a 5 hours car or train away in Zurich, Switzerland. The club is called Globe and it is famous for having an owner (Ingo) who has strict standards for service. While the 30 min fee is higher at 150 Swiss Francs, every courtesan must include French Kissing. This makes the negotiation aspect almost unnecessary.

The other great club is called Wellcum in Villach, Austria. It is most famous for its incredible facilities that includes a connected hotel in a picturesque town in the mountains. While difficult to get to, it is an incredible relaxing experience to sleep or nap with fresh mountain air in the hotel room and then take a short stroll in your robe to the incredible Italian buffet, the clean spa areas and modern club. Most importantly, it has a lineup almost as large as FKK Sharks.

While there are many other clubs in the region, it is usually not worth your time as the average age and attractiveness of the women are much higher. There is naturally a winner takes all effect that happens where the most beautiful and young courtesans gravitate to the most famous clubs. Overall, the structure and legality of FKK clubs makes it a great place to start your adventure with courtesans. It is simply just easier and harder to get yourself in trouble.

However, there will be a moment where you felt you have mastered FKK Clubs and that's when I recommend venturing to places such as Scandallo in Sao Paolo, Brazil. It does an incredible job of blurring the lines of what it means to be with a courtesan, but that's for another more advanced guide.

5. Conclusion

Life is tough. Women are tough. It is what it is. However, you can soften the blow by enjoying women on the most primitive level possible. Just like a bonobo monkey will trade a banana for some intimacy. Humans have done the same for millennia. For many Americans, it is hard to believe this as we've been so sheltered but places like FKK Sharks exist.

Whether you are deeply depressed, need to scratch an itch or simply need to keep your marriage intact with a discrete arrangement, the clubs serve a valuable

purpose that is as ancient as cooking. We at Franklin Guide are focused on the finer aspects of this world. We are looking for courtesans and not hookers. A courtesan is that feminine energy that can whisk away into another dimension and then bring us back without any long lasting emotional debt.

There are many more details that we didn't have time to discuss in this introductory guide. Join our Telegram at <https://t.me/FranklinGuide> to get access to more detailed guides as well as information about more venues in the world. We also offer personalized consultations of which the base consultation fee is waived for the rest of 2026.
